1/18/2000 - I received a phone call today from Dennis Williams - He stated the surety company is requiring \$21,000 from them before they will post the \$72,500 surety bond we are requiring. They need to go another direction with the surety and asked what else they could do. I sent a LOC form and RC form. Mr. Williams said they would have these to us by the end of the month. I asked him to submit them in draft form before finalizing.

He also said he had the transfer papers completed, signed by Charles Stack of Utah Refractories.
